

Questionnaire for East Village Demonstration Project for Traffic Slowing and Parking

The town set up a Project Team to work with the Me DOT to see if there was a way to slow vehicles passing through a village area in the most cost effective and efficient way. Some permanent and temporary changes were made in August 2024 to test this including permanent speed-feedback signs paid by MeDOT and temporary plastic posts on the white and yellow line. For those people who experienced these changes from August to Nov 1st, the town hopes that you will take the time to give your feedback this December so that we can learn what works what problems arose that we might fix with a different system in order to create a safer town for all.

- 1. **Your name and physical street address and town.** (Required to confirm resident of town; name will not be made public; each adult at the address can fill out a survey).

- 2. When you FIRST noticed the plastic posts in the white travel line or the yellow center line, what was your reaction and/or what did you DIRECTLY observe about other people's reaction? Please be specific .

- 3. In the last month of the project (October) , what was your reaction to the posts and/or what did you DIRECTLY observe about other people's reaction?

- 4. What was your experience of seeing the speed -feedback signs on the north and south ends of East Vassalboro village?

- 5. IF you used the parking areas at the boat landing or public lot next to the Historical Society, please comment on your experience while the white posts were up and restricting parking on the side of the road.

- 6. How often did you drive through the intersection of S. Stanley Hill Rd /Bog Rd and Main Street (Rte. 32) between Aug. 1st and Nov 1st 2024? Check only one.

- *Daily (3 or more times a week)
- *Weekly (or around 12 times total in those 3 months)
- *Less than 12 times
- *I didn't drive through the E.Vassalboro village during August 1st-October1st.
- *Other _____

7. Any other things you wish to share about the posts?

8. Anything you wish to share about the permanent speed- signs ?

9. **What would you suggest to create a safer village area for pedestrians?** _____

Thanks for participating in this survey. This will help the town as we consider how the town might move forward with improving safety and reducing speed in the East Village. Feel free to encourage anyone who has an experience to share to fill out a form.

If you have more suggestions or information, please continue in any space on this form or email to Questions@vassalboro.net and put "E Village Safety Project" in the subject line.
